

HANA  
華Doll\*

*Are you a thinking reed?*

Idols are popular in the flourishing entertainment industry. They give people hope, they shine bright, and many aspire to become one. However, countless imitations are flooding the idol industry, causing oversaturation.

In the midst of this, one entertainment production company has set forth on a new project.

### The HANA-Doll Project

This project is a fusion of entertainment and medical care. A special flower seed is implanted in the human body, and the highest level of potential is drawn out to match the growth implemented by this medical technique.

With this technique, the project has artificially created near “perfect” idols with a high level of talent.

Many young people hoping to pursue their dreams have gathered to participate in this project. Six boys were chosen after passing a brutal audition and enduring exhausting training.

With the plethora of memories that they each keep in their hearts, these boys set foot into this new world.

These boys have exchanged the life they knew for a “flower.”

In a world where not a single thing is perfect, where will these inexperienced boys who are given a “choice” end up?

## HANA-Doll\*

Are they “human” or are they “dolls”?

PRODUCTION

Amagiri Production

Founder/CEO - Hajime Amagiri

Amagiri Production is one of the major entertainment production companies, and they have an idol training school. Manners and rules are to be followed, as the idols are strictly disciplined and are part of a caste system. Amagiri Production has started a project that strives to create a new type of idol. This is the HANA-Doll Project.

In the **HANA-Doll Project**, a capsule referred to as a special flower “seed” is implanted in a human. The limitations on standard mental processes are removed, unleashing man’s true capabilities in order to create the “perfect” idol. The growth of the “seed” depends on two things - the emotions of the person it is in and the support from their fans. The “seed” will then bloom into a flower in the person’s body. The “seeds” have a GPS function, so even those who once took part in the project live in the dorm managed by it. Every day, the idols have their EEG measurements taken and have a health check. The idols’ health is managed by mascot androids called PLANTs that are equipped with the latest technology.

## Idols Who Strive for “Perfection”

### Anthos\*

Anthos\* (spelled without the asterisk during their pre-debut days) is the HANA-Doll Project’s boy group. The origin of the group name is the word “flower” in Ancient Greek. One of the purposes of the HANA-Doll project is “to watch a unit grow,” so Anthos\* did not make a full debut at first and instead started their activities in the pre-debut class. After the flowers in all six members bloomed, Setsuna Yashiro, the member who was hidden from the public, was newly welcomed into the group and Anthos\* made their official debut as a seven-member unit.

### Antholic

Antholic is the general term as well as the official fandom name for Anthos\* fans.

### Loulou\*di

Ageha Karasuma, Rui Hinagi, and Kaito Amemiya, the members of Loulou\*di, were formerly SS class trainees at Amagiri Production. Ageha Karasuma was popular as the unit’s ideal center, though they stopped all of their activities when Kaito Amemiya left. Toki Sakurai joined as a new member after that, and a reborn Loulou\*di resumed their activities. Their unit name means “flower” in Greek.

### Loumiel

Loumiel is the general term as well as the official fandom name for Loulou\*di fans.

### Ryoga Kagekawa

Voice Actor: Daiki Hamano

 Image Color: Green  
 Group Responsibility: Muscular physique  
 Flower Mark: Clover  
 Mark Location: Right arm

Hobby or Specialty: Photography, working out  
 Personality:

Ryoga is like the mother or father of Anthos\*. He is the oldest, so he acts as a flower stem, supporting the group with both kindness and discipline. In contrast to his appearance, he has a sensitive side. He cries easily and can't fall asleep without hugging a body pillow. His recent problem is that he can't find shoes because his feet are too big.

### Mahiro Yuki

Voice Actor: Seiichiro Yamashita

Birthday: April 4    Age: 20  
 Height: 174cm (5'8")    Blood Type: O  
 Image Color: Red  
 Group Responsibility: Smiling  
 Flower Mark: Anemone  
 Mark Location: Neck

Hobby or Specialty: Japanese historical dramas, cooking  
 Personality:

Straight-forward and reliable, but a little out of it, Mahiro is the loveable younger brother of Anthos\* who is good at getting others to spoil him. He's generally a positive thinker, so much so that if there is something that he dislikes, he'll soon forget about it if he has a nap or something to eat. He has a pure outlook and trusts easily, and he likes all of the other members very much. He doesn't care very much about his appearance, so all of his clothes are out of style. He receives hand-me-downs from the other members who can't stand his out-of-date look.

### Kaoru Kisaragi

 Height: 178cm (5'10")    Blood Type: A  
 Image Color: Blue  
 Group Responsibility: Relaxation  
 Flower Mark: Forget-me-not  
 Mark: Left side of his chest

Hobby or Specialty: Making sweets, drawing  
 Personality:

Kaoru is serious and cooperative, a knightly prince who is polite to everyone. Due to his kind personality, he tends to get himself caught up in many different circumstances. He's worried about looking older than he actually is because of his mature nature. He's the most cooperative of all of the Anthos\* members, so powerfully working behind-the-scenes comes naturally to him thanks to his gentle personality.

### Chise (Chitose Shorai)

Voice Actor: Wataru Komada

Birthday: January 2    Age: 22  
 Height: 181cm (5'11")    Blood Type: AB  
 Image Color: Yellow  
 Group Responsibility: Visuals  
 Flower Mark: Narcissus  
 Mark: Stomach

Hobby or Specialty: Fashion and new items  
 Personality:

Chise is the free-spirited person who marches to the beat of his own drum. His unique spirit really shines when he lets loose. He is very open with others, so his friendly communication style allows him to get along with anybody. Even the other members admit that he is good-looking thanks to his model-like proportions. He is a bit too confident in the way he looks, to the point of narcissism. He is terrible with directions and gets lost easily.

He may look as if he is only doing things his way, but he is good at making sure he doesn't bother anyone around him. He is dedicated to practicing and will not compromise his performance quality for anything. He tends to feel lonely, so he frequently uses social media to connect with his fans.

## What is ?

The HANA-Doll\* series contains CDs that include songs and audio dramas.

HANA-Doll\* takes a different look at the typical image idols have and includes a breadth of intellectually stimulating content that touches on taboo themes.

At first glance, this series may seem like a story about watching the personal growth of boys who dream about becoming idols. However, there are hidden shapes that the story takes on, including undertones that connect it to the bigger story's foreshadowing and message.

Of course, the story can be thoroughly enjoyed as-is, but if you want to understand this series on a deeper level, then you'll need to use the various types of knowledge that you have and "listen + look + think" to get closer to the true secrets that this story holds.

Is what you see the truth?  
Is that truly "your answer"?

Whether you accept this invitation or not is up to you.  
We will always ask.

Are you a thinking reed?
